Sure-Foot Support Solutions

A cost-effective range of non-penetrative and free-standing modular supports for building services.

The Sure-Foot range of supports has been developed by Roof-Pro - a market-leader in this field. Sure-Foot specifically meets the growing demand for off-the-shelf, lightweight support solutions.

Sure-Foot solutions facilitate simple access for maintenance of the roof.

Sure-Foot Support Components

Page 3

Sure-Foot components form part of a cost-effective, non-penetrative support solution for roof plant, access and services. Compatible with a standard 41x41mm strut, Sure-Foot components form versatile solutions that reduce complex, costly and time-consuming detailing.

Sure-Foot H Frames

Page 4

Sure-Foot H Frames provide a simple and cost-effective solution for supporting a wide range of service runs, including ductwork, pipework and cable trays. Depending on project requirements, complete H Frames or H Frame Kits (H Props) can be supplied.

Sure-Foot Standard Modular Frames

Page 5

Sure-Foot Standard Modular Frames are ideal for providing an effective support option for various types of roof plant. Each modular frame comes with a 41x41mm strut, along with a choice of adjustable Sure-Foot leg assemblies. The Extender Frame comes with 2 additional Sure-Foot leg assemblies to create custom solutions for supporting building services units.

Sure-Foot Long Span Modular Frames

Page 6

Sure-Foot Long Span Modular Frames are suitable for the support of larger and wider building services units. This product differs from the Standard Modular Frames in that 2m Heavy Duty Box Sections are provided with these frames, rather than the standard 1.5m Box Sections. 300mm and 450mm Sure-Foot bases are available for use with these frames.

Sure-Foot Guardrail

Page 7

The Sure-Foot Guardrail range comprises of system solutions for 3 different roof edge conditions. Each Guardrail system is designed to be compatible for use with the other system types in the range and the systems are supplied in kit form making them quick and simple to design and install.

Sure-Foot Support Components

Sure-Foot components form part of a cost-effective, non-penetrative support solution for roof plant, access and services. Compatible with a standard 41x41mm strut, Sure-Foot components form versatile solutions that reduce complex, costly and time-consuming detailing.

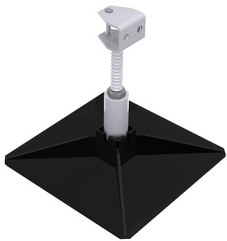

Base Only

Product Code	Description	Base Size (mm)	List Price
SF300-B	Base Only	300	£11.34
SF450-B	Base Only	450	£18.74

- The simplest Sure-Foot support option
- Compatible with 41x41mm strut
- Enables contractors to create their own bespoke support solutions
- Base comes complete with 3mm bonded rubber mat

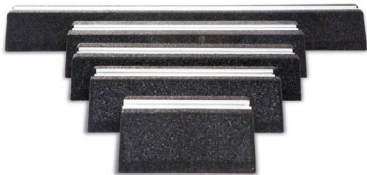

Base and Leg

Product Code	Description	Base Size (mm)	List Price
SF300-BL	Complete - Base and Leg	300	£17.37
SF450-BL	Complete - Base and Leg	450	£24.34

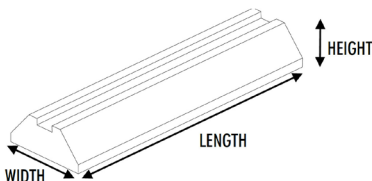

- Complete leg assembly
- Facilitates adjustment between a target height range of 260-390mm
- As with the Base Only, a 4mm bonded rubber mat is included

Roof Block

Product Code	Description	Length (mm)	Dimensions HxW (mm)	Max Load (kg)	Weight (kg)	List Price
SF-RB-0250	Roof Block - 250	250	100 x 183	160 per foot	2.90	£7.50
SF-RB-0400	Roof Block - 400	400	100 x 183	240 per foot	4.65	£9.87
SF-RB-0600	Roof Block - 600	600	100 x 185	400 per foot	6.60	£13.19
SF-RB-1000	Roof Block - 1000	1000	100 x 183	645 per foot	13.50	£24.31

- Simple and cost effective
- Recycled rubber supports for pipes, ducts and cable

Sure-Foot H Frames

Sure-Foot H Frames provide a simple and cost-effective solution for supporting a wide range of service runs, including ductwork, pipework and cable trays. Depending on project requirements, complete H Frames or H Frame Kits (H Props) can be supplied.

H Frames

Product Code	Description	Base Size (mm)	List Price
SF300-H	Sure-Foot H Frame	300	£34.14
SF450-H	Sure-Foot H Frame	450	£58.81

Comprises of:

- 2 No. Sure-Foot Bases (300mm or 450mm)
- 2 No. L Brackets
- 4 No. Bolt Sets
- 3 No. Lengths of 41x41mm strut with end caps (500mm for SF300-H and 750mm for SF450-H) to form the upright and horizontal supports
- SF450 includes 4 L brackets for additional length

H Frame Kits (H Props)

Product Code	Description	Base Size (mm)	List Price
SF300-HK	Sure-Foot H Frame Kit	300	£25.48
SF450-HK	Sure-Foot H Frame Kit	450	£45.97

Comprises of:

- 2 No. Sure-Foot Bases (300mm or 450mm)
- 2 No. L-Brackets
- SF450 includes 4 L brackets for additional length
- Bolt Sets and 41x41mm strut required for the upright and horizontal supports

NB: Bolt sets included, strut is not

Sure-Foot Standard Modular Frames are ideal for providing an effective support option for various types of roof plant. Each modular frame comes complete with a 41x41mm strut, along with a choice of adjustable Sure-Foot leg assemblies. The Extender Frame comes with 2 additional Sure-Foot leg assemblies to create custom solutions for supporting building services units. Both the 300mm and 450mm Sure-Foot bases are available with this product range.

Standard Modular Frames

Product Code	Description	Base Size (mm)	List Price
SF300-F4-1.2M	Sure-Foot Standard Modular Frame With 4 x Bases (Complete)	300	£132.12
SF300-F6-1.2M	Sure-Foot Standard Modular Frame With 6 x Bases (Complete)	300	£224.72
SF300-F8-1.2M	Sure-Foot Standard Modular Frame With 8 x Bases (Complete)	300	£317.32
SF300-EF-1.2M	Sure-Foot Standard Modular Extender Frame With 2 x Bases (Complete)	300	£91.07
SF450-F4-1.2M	Sure-Foot Standard Modular Frame With 4 x Bases (Complete)	450	£173.94
SF450-F6-1.2M	Sure-Foot Standard Modular Frame With 6 x Bases (Complete)	450	£287.45
SF450-F8-1.2M	Sure-Foot Standard Modular Frame With 8 x Bases (Complete)	450	£400.95
SF450-EF-1.2M	Sure-Foot Standard Modular Extender Frame With 2 x Bases (Complete)	450	£111.98

Sure-Foot Long Span Modular Frames

Sure-Foot Long Span Modular Frames are suitable for the support of larger and wider building services units.

This product differs from the Standard Modular Frames in that 2m Heavy Duty Box Sections are provided with these frames, rather than the standard 1.5m Box Sections.

300mm and 450mm Sure-Foot bases are available for use with these frames.

Long Span Modular Frames

Product Code	Length (mm)	Description	Base Size (mm)	List Price
SF300-F4-2.0M	2000	300 Long Span (2M) Base Frame (4 Leg) - Complete	300	£173.64
SF300-F6-2.0M	2000	300 Long Span (2M) Base Frame (6 Leg) - Complete	300	£307.75
SF300-F8-2.0M	2000	300 Long Span (2M) Base Frame (8 Leg) - Complete	300	£441.85
SF300-EF-2.0M	2000	300 Long Span (2M) Extender Frame - Complete	300	£132.58
SF450-F4-2.0M	2000	450 Long Span (2M) Base Frame (4 Leg) - Complete	450	£215.45
SF450-F6-2.0M	2000	450 Long Span (2M) Base Frame (6 Leg) - Complete	450	£370.47
SF450-F8-2.0M	2000	450 Long Span (2M) Base Frame (8 Leg) - Complete	450	£525.49
SF450-EF-2.0M	2000	450 Long Span (2M) Extender Frame - Complete	450	£153.49

Sure-Foot Guardrail Systems

The Sure-Foot Guardrail range comprises of system solutions for 4 different roof edge conditions. Each Guardrail system is designed to be compatible for use with the other system types in the range and the systems are supplied in kit form making them quick and simple to install.

Systems comprise the minimum number of well-scoped components, facilitating ease of specification and product ordering. A modular design eliminates the need for time and cost associated with bending and welding systems on site.

Due to updated changes in regulations all quotations shall be project specific designed for building height and location, with consideration for roof edge upstands and existing parapets, which can result in a third rail being required.

Guardrail Systems

Product Code	Description	Length (mm)	List Price
GR-ELFS	Sure-Foot Guardrail Freestanding	1000	POA
GR-ELFD	Sure-Foot Guardrail Folding	1000	POA
GR-ELTF	Sure-Foot Guardrail Top-Fix	1000	POA
GR-ELPA	Sure-Foot Guardrail Parapet	1000	POA

Bespoke Designs by Roof-Pro

Also Available:

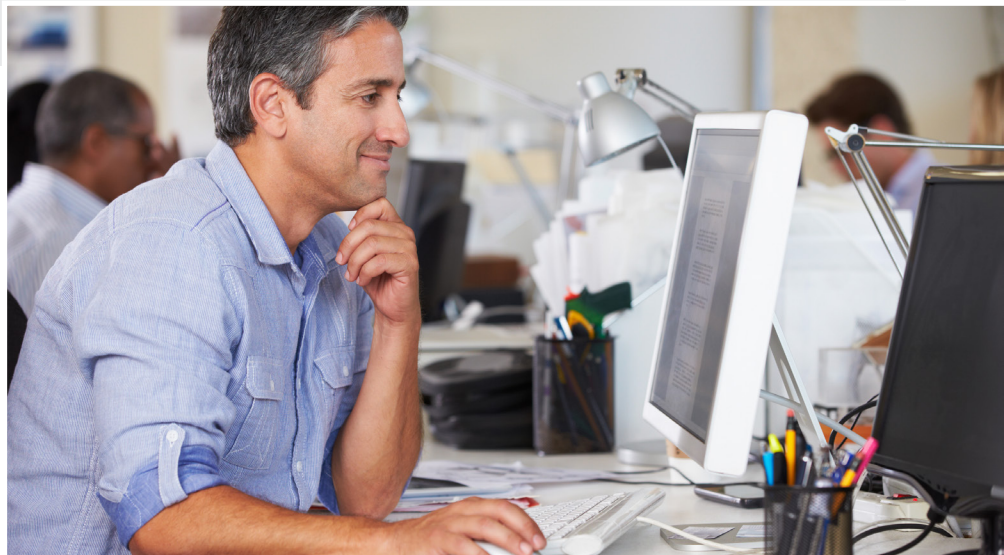

A design-led range of non-penetrative, free-standing supports for building services and access platforms for flat roofs from Roof-Pro

Roof-Pro systems can support the following building services:

- Small to large AHUs, chillers and dry-air coolers
- Condensers, including DX units and VRV/ VRF systems
- Cable ladders and cable trays
- Small to large pipe runs
- Duct, attenuator and extract fans
- Access step overs, roof-level changes and unit maintenance platforms
- Solar panels, generators, water-tanks and plant-rooms

- **CAD Drawings**
- **BIM Objects**
- **Load Management Calculations**
- **Wind Stability Calculations**
- **O&M Documentation**

Our Design Team can recommend the correct support frame for your units, based on an assessment of your roof build-up information and details of the units support requirements.
